FROM THE LEADER OF THE PACK

Hello National Members,

What a great month to ride. I didn't get to do as much as I hoped, but still got in a great ride to Klamath. Randy and Jody won a gift certificate in the May basket that was for a cabin on the Klamath River. They invited us to tag along with them. So did Lee and Colleen. It was a great weekend. We rode about 450 miles in the 2 days. The weather was perfect!. Thank you Lou and Carolyn for showing us a great place to go on the coast.

This month has some great rides in it. We are going to the Rogue River on the 10th. Ralph S. has planned a great time on the Jet Boat trip. This is a fun one. Glad we are going. Then we have the dinner ride to Trinity Alps Resort. That will be fantastic. We really had a good time last year and should be even more fun this year. We are leaving earlier so we can look around a bit before we eat. And don't forget we have the campout on Shasta Lake. Survivor Games are fun. Last year I found the hidden immunity idol even before the clues were put out. Lee said that won't happen again but I will be trying. Don't forget the WaDickers. Sharon said you have to be present to understand. Hope to see you at all these events this month. Have fun in what ever you do!

From ACTIVITIES TO YOU BY Willie P.

Wow, summer is going by so fast! We had a great turn out for the dinner ride. I was planning on going to a new Burger Joint in Palo Cedro, but they had gone out of business. So we headed over to Smoke's Bar B Que. on Airport Road by Rancho. There were 16 of us, but only 15 chairs in the place. Good thing Jan drove her car, and had a folding chair in the trunk. The place has the best

Ribs in Redding. And the owner did a great job of taking care of us. From taking the order to serving the food. And the Blond Drink Girl did a great job too. This month the dinner ride will be on Saturday the 17th. we will be meeting at the Texaco on S. Bonnyview, and leave at **3 pm**. We are headed over to the The Trinity Alps Resort for dinner. Everyone who went on the ride last year really like the Resort. Food was great, and the ride

over to Lewiston Lake was very nice. Hope to see everyone on this ride. Don't forget the JET Boat ride coming up on the 10th. This is one of the best rides we do all year. Speed, water, great food, and free beer. What more could you ask for? Enjoy the heat, it will be raining again soon. RIDE ON!

The REAL Deal - Bev Nocerini

Just touching base with everyone. We have had a fairly busy summer so far. What with moving, grandkids, moving, some rides & did I mention moving? Anyway, it's been eventful and getting more so.

We are going on the jet boat ride on the 10th of this month. We have never gone before but from the reports I've heard, it's a ball. Looking forward to it. We are leaving early so the weather should be nice.

We have the camp out coming up too on the 29th. It's always fun. Gets a little hot but the campsite is nice and has running water so hopefully we won't get too hot. The food is always good! Albert and his group are fixing breakfast for us again this year. Last year was wonderful and they put up with all of our silly shenanigans! You need to think about joining us!

After all of these events we are going to San Diego for the state HOG rally. It's in September. They are really fun also. We've been to 3. Lots of great events going on & lots of different people. We've never been disappointed

Before I close, I want to thank all of you for participating in the "cell phone for soldiers". I am sending in a box full next week. In case you don't understand what this is I will explain: The cell phones we send in are disassembled and the precious metals taken. With the money they collect from the metals they give the service men phone cards so they can call home. It's a wonderful service. So thank you all!

I love this club. We have some very hard working friends that are Hell bent on making us have a good time! That being said, see you at the next meeting!

Beverly Nocerini

PS. Come join us at a REAL meeting too. More about that next month.

National Members Redding California, Inc. is an organization dedicated to the "Ride and Have Fun" motto set forth by HOG National. We have always tried to keep it "fun" and eventful, hopefully providing good activities and rides that interest all members and encourage participation. Lets keep it FUN for a long time to come!

SAFETY SAFARI By Don Saewert

Quick tips: Ten things all car & truck drivers should know about motorcycles.

1. There are a lot more cars and trucks than motorcycles on the road, and some drivers don't "recognize" a motorcycle; they ignore it (usually unintentionally). Look for motorcycles, especially when checking traffic at an intersection.
2. Because of its small size, a motorcycle may look farther away and may also be difficult to judge a motorcycle's speed. When checking traffic to turn at an intersection or into [or out of] a driveway, predict a motorcycle is closer than it looks.
3. Because of its small size, a motorcycle can be easily hidden in a car's blind spots (door\ roof pillars] or masked by objects or backgrounds outside a car (bushes, fences, bridges).
4. Because of its small size a motorcycle may seem to be moving faster than it really is. Don't assume all motorcyclists are speed demons.
5. Motorcyclists often slow by downshifting or merely rolling off the throttle, thus not activating the brake light. Allow more following distance, say 3 or 4 seconds. At intersections, predict a motorcyclist may slow down without visual warning.
6. Turn signals on a motorcycle usually are not self-canceling, thus some riders. (especially beginners) sometimes forget to turn them off after a turn or lane change. Make sure a motorcycle's signal is for real.
7. Motorcyclists often adjust position within a lane to be seen more easily and to minimize the effects of road debris, passing vehicles and wind. Understand that motorcyclists adjust lane position for a purpose, not to be reckless or show off or to allow you to share the lane with them.
8. Maneuverability is one of a motorcycle's better characteristics, especially at slower speeds and with good road conditions, but don't expect a motorcyclist to always be able to dodge out of the way.
9. Stopping distance for motorcycles is nearly the same as for cars, but slippery pavement makes stopping quickly difficult. Allow more following distance behind a motorcycle because it can't always stop "on a dime."
10. When a motorcycle is in motion, don't think of it as a motorcycle; think of it as a person.

Good reminders for when we drive cars and trucks.

Don S.
